WHO STOLE JFK'S BRAIN FROM THE NATIONAL ARCHIVES?

Wecht, was the first critic of the Warren Commission's report on the assassination to be allowed to see items from the autopsy on the President.

brain and possibly items were not included.

Mr. Marshall, who is a law professor at Yale University, said in an interview last night that he never had possession of the chest of items and that

to the assassination, and that he, Mr. Marshall, obtained these from the Kennedy family and lodged them with the Archives in 1966.

object in the photographs.

Dr. Wecht, who is both a pathologist and a lawyer, said he felt certain that the brain was still "around somewhere" and that he intended to ask Mr. Marshall to [illegible]

port said today.

The expert, Dr. Cyril H. Wecht, was the first critic of the Warren Commission's report on the assassination to be allowed to see items from the autopsy on the President.

In interviews with Government officials and President Kennedy's former personal secretary, Evelyn Lincoln, disclosed that the slides and probably the

shall, a representative of the Kennedy family, the slides, the brain and possibly other items were not included.

Mr. Marshall, who is a law professor at Yale University, said in an interview last night that he never had possession of the chest of items and that he had no knowledge of the brain or any other objects now in the Archives.

Mr. Marshall said that other items had apparently not been

to the assassination, and that he, Mr. Marshall, obtained these from the Kennedy family and lodged them with the Archives in 1966.

Examination of the brain by secretary Dr. Wecht said, because photographs of the top of the removed brain, which were shown to him, disclose a sizable foreign object that could have been a flattened

object in the photographs.

Dr. Wecht, who is both a pathologist and a lawyer, said he felt certain that the brain was still "around somewhere" and that he intended to ask Mr. Marshall to let a panel of experts inspect it. "Who would have taken the responsibility to destroy the brain?" he asked.
